elphia Office may be aware ities of principal suspects p index should be utilized. a suspects and should NCIC

In order that the Philadelphia Office may be aware insofar as possible as to the activities of principal suspects in this investigation, the NCIC stop index should be utilized. Stops should be placed against prime suspects and should NCIC receive an inquiry from a local law enforcement agency, the Philadelphia Office will be immediately advised.

Accordingly, Philadelphia should immediately submit fact sheets on each prime suspect to be included in the stop index. Furnish sufficient descriptive data such as birth date, social security number, military service number, etc. Include data on any motori vehicle utilized by the suspect.

NOTE: See Rosen to Sullivan memo 6/24/71, captioned "NCIC Stop Index Medburg." In discussions with Messrs df the Uniform Crime Reporting Section, it was indicated that should a local police agency make inquiry, a response would not be made to the inquiring agency with respect to the stop placed in the Medburg Should through mechanical deficiencies a reply be sent to the inquiring agency, it would be transmitted in such a manner so that the content of the message would be inumintelligible. Bishop Brennan, C.D. Callahan Casper . Mr. Sulliva DATE: June 24, 1971 Gale . 1 - Mr. Sullivan Rosen 🚣 Tavel 1 - Mr. Rosen A. Rosen Soyars 1 - Mr. Shroder Tele Room 1 - Mr. Campbell SUBJECT (NATIONAL CRIME INFORMATION CENTER 1 - Mr. Schutz 1 - Mr. Bishop STOP_INDEX MEDBURG 1 - Mr. C. D. Brennar 1 - Mr. Daunt Our investigation into the burglary of the Media, Pennsylvania, Resident Agency during the night of March 8, 1971, has developed approximately 35 to 40 prime suspects who while not being directly involved in the participation of the burglary, could possibly possess information dealing with the distribution of Media documents. These individuals are being spot checked by our various field divisions, the degree of surveillance depending upon each individual's potential as a suspect. With the advent of the summer session, the closing of schools--many of these suspects are associated with colleges or universities -- the propensity for travel increases. U Under these circumstances, it would appear logical that these selected individuals be placed in the National Crime Information Center (NCIC) stop index in order that we may be made aware of any inquiry by a law enforcement agency throughout the U.S. relative to each. In this manner we could keep abreast of their activities and could possibly develop information which would be useful in connection with any future interview. () This has been discussed with the Uniform Crime Reporting Section and it is understood that appropriate security measures have been implemented so that should an inquiry be made by a local law enforcement agency with respect to a Medburg suspect, no information would be furnished that agency. U EX-114 REC-6 52-9452 If approved, Philadelphia will be instructed to submit necessary identifying data relative to each individual to be incorporated in the stop index. After incorporation into NCIC, any hit will be immediately forwarded to the Philadelphia Division, office of origin in Medburg, and the General Investigative Division.U JUL 7 1971

REG, NO. 27 UNITED STATES GOVERNMENT emorandum DATEJULY 7, 1971 1 - Mr. Sullivan 1 - Mr. Bishop 1 - Mr. Rosen 1 - Mr. C.D.Brennan FRON Rosen 1 - Mr. Shroder 1 - Mr. Callahan Soyars Beaver 1 - Mr. Campbell 1 - Mr. Dalbey Tele. Room Holmes 1 - Mr. Schutz 1 - Mr. Gale Gandy SUBJEC 1 - Mr. Mohr. In connection with our investigation into the burglary of the Media Resident Agency during the night of March 8, 1971, SAC Roy K. Moore, who is handling the special at Philadelphia, has advised 12 of the 25 Agents assigned to the Philadelphia Division on the special have returned to their field offices of assignment. Two more are scheduled to return this weekend, leaving a balance of 11, including SAC Moore. U b7C b7D b7E Of primary interest is the fact our investigation in the camden, New Jersev. area has resulted in the location of Grady, his hideout, and b6 b7C EX-105 REC 4352 - 94527 b7D As previously indicated in our memorandum of June 28, 1971, dealing with the latest phase of our investigation, it is imperative no dissemination be made of this information outside the FBI at this time. Memorandum to Mr. Sullivan MEDBURG Re:

lintention that by careful planning we may be in a position to apprehend those participating in this new break-in (15 to 25 individuals) during the actual attempt. We hope to link many of these individuals with the Media break-in. U

By memorandum dated June 24, 1971, reference was made to the feasibility of conducting a grand jury hearing into Medburg. It was recommended and approved that no action be taken along these lines until

In view of the fact our current inquiries have resulted in our being in a position to anticipate a hit by the Grady group within the next two weeks, any grand jury action would obviously adversely influence Grady's plans for his newest break-in.

ACTION: If approved, we will continue our efforts along the lines set forth above, and no discussion will be had at this time with the Internal Security Division relative to a possible grand jury hearing on Medburg. V

Philadelphia disagrees with this status. This
Office believes that has been thoroughly tested
and is truly dedicated to this movement. When she was
apprehended 2/7/70 at the time of the break-in of

she gave Philadelphia Detectives a "very hard time."

Lt. the Civil Disobedience Unit,
Philadelphia Police Department, advised it was necessary to
handcuff her to a chair. She is wanted locally on a bench
warrant obtained 7/22/70, when she failed to appear for
arraignment 7/2/70 on a charge of illegal entry. This is
a misdemeanor, for which she cannot be extradited, but
Philadelphia Police would be interested if she is known to
be in this area in the future. At the time of her arrest,
she had nothing on her person to identify herself.

In addition, as pointed out in referenced Boston report dated 4/28/71, subject attended
told a source that subject was a person who should be

In view of the above, Philadelphia believes she should continue to be considered as a prime suspect; and, accordingly, Boston is instructed to comply with instructions in Philadelphia teletype dated 6/18/71, captioned "MEDBURG."

Although she cannot be surveilled, because she was cited for contempt on 4/28/71 for her refusal to testify before a Federal Grand Jury at Harrisburg on 4/22/71, it is believed that attempts should be made, through established sources, to determine if she remains in the Boston area. We would be most interested to learn if she plans a trip to the Philadelphia area. Also, as instructed in Philadelphia teletype 6/18/71, a summary of her activities, which can be obtained logically and discreetly from established sources, should be submitted at the end of each week. Also, the results of toll calls should follow later. U

PAPER EXAMINATION

Paper analysis conducted on 3/29/71. A small portion of Q13, 14. 15, 23, 24 and 28 were removed for this analysis. The following is a composition of the documents analyzed:

<u>Q13</u>					
	Hardwood	Beachwood Bleached Bleached	Sulfite		24% 35% 41%
Q14					
	Hardwood	Bleached Bleached Bleached	Sulfite		20% 55% 25%
<u>Q15</u>					
	Softwood	Bleached Bleached Bleached	Kraft		31% 20% 49%
<u>Q23</u>					
	. Semicher	Bleached mical Bleached		Sulfite	69% 31%
<u>Q24</u>					
	Semicher	Bleached mical Bleached		Sulfite	75% 25%
<u>Q28</u>					
	Semicher	Bleached mical Bleached		Sulfite	79% 21%

Q13 and 14 have characteristics similar to paper produced by Nekoosa Edwards, Port Edwards, Wisconsin, with a plant in Potsdam, New York.

No conclusion could be obtained regarding Q15, due to the difficulty in staining because of resins - zinc oxide coating.

Q23, 24 and 28 appears to be Hammermill Paper, Erie, Pennsylvania with plants in Lockhaven, Pennsylvania and Oswego, New York. Hammermill supplies paper to Xerox according to xerox specification and also supplies paper to other sources under the same specifications. Therefore, no determination could be made as to whether the paper was Hammermill for Xerox or Hammermill for another source. It was concluded this paper is not Xerox 1024 or Hammermill 0 copy, due to the lack of water mark which indicates a Grade One paper. The paper appears to be Xerox 4024 (Grade Four), Xerox 1524 (Grade Five), Hammermill Fore 0 copy (Grade Four) or Hammermill Savings 0 copy. The difference between Grade Four and Grade Five paper is essentially due to the characteristics of the surface and this difference could not be ascertained due to toner and background on documents. The paper is a relatively smooth common bond duplicator grade.

REPRODUCTION METHODS

Olivetti Underwood Copia II and Copia III impart a distinct dark color border on both sides and the top of the copy. These machines utilize zinc oxide coated paper. Olivetti Underwood is located Englewood Cliffs, New Jersey. An example is Q15.

3M Process is Dual Spectrum. This process utilizes white and pink paper, each containing a chemical passing over an exposure section, which is then heat treated for development.

3M produces five machines which are as follows:

- (1) Casual Compact (Brief Case Type)
- (2) Casual Desk
- (3) Copy Mite
- (4) Model 107
- (5) Model 209

3M also underlicenses a machine, Trans-O-Gram Copymate. This machine as well as the above 3M machines utilizes 3M paper, which has a tulip mark on the reverse side.

The Xerox 660 is in a family with Xerox 330 and 813, however, the 660 is the only xerox machine that reproduces at a one to one ratio. This machine imparts certain mechanical characteristics upon the original and the copy. The top edge of the original will have imparted upon it by the machine four pinpoints which is caused by the document grippers. The document grippers hold the original to the document drum during the cycle. Copies should have three double sets of pinch marks on the top of the page, which is caused by the gripper bar. The gripper bar attaches to the copy and is pulled through the machine during

the cycle. Thin vertical lines, approximately two and one half inches from each side of the copy is caused by toner build-up on the feed out rollers. Three wider vertical lines at the bottom of the copy is caused by toner build-up on document drum under the stops. The top one half inch of the original document will not be reproduced on the copy unless the plastic document carrier is used. If the document carrier is used the four pinpoints will not be imparted on the original.

UNIQUE DOT

From analysis of numerous documents submitted. it is noted a unique dot characteristic to the unknown machine is located four and one half inches from the left side and from one quarter to one half from the bottom. This unique dot is reproduced on a eleven inch copy from a ten and one half inch original. Therefore, the last one half inch of the eleven inch copy is a reproduction of a one half inch section of the document The dot can be caused by either dirt on the drum or a chip from the drum. To reproduce the dot it is necessary to utilize a ten and one half inch original and reproduce this on eleven inch paper. It is noted that if ten and one half inch document is reproduced on ten and one nalf inch paper, the dot will not appear. It is noted if an eleven inch document is reproduced on eleven inch paper the dot will not appear. the event the unique dot is caused by dirt on the document drum the dot could be removed when the machine is cleaned. It is noted this unique dot is present on Q17-22, 24-26, 28-32, 35-41, 43, 45-47, 52-58, 60-66, 69-80, and 83.

Q86 is a reproduction on zinc oxide paper. The machine utilized is roll feed rather than cut feed, which indicates the copy is reproduced side ways on paper eleven inches wide. Several companies produce this type of machine and no identifying characteristics were noted which would identify the manufacturer.

(22) FD-302, dated 7/13/70.

Q87 is a reproduction on zinc oxide paper and has the same characteristics as Q86.

(23) Memo of SA THOMAS F. LEWIS, dated 6/18/70 on Philadelphia 157-3852.

Q88 is also a reproduction on zinc oxide paper and having the same characteristics as Q86.

(24) Envelope, dated 3/9/71, with new clipping.

Q92 is probably a reproduction from a Xerox Machine, possibly 2400 or 3600, however, no characteristics were noted which could identify the machine.

(25) On the night of 3/8/71 . . .

Q93 has the same characteristics as Q92.

(26) The Citizen's Committee to Investigate the FBI.

Q95 is a reproduction from a Xerox 660.

Upon completion of examination by the laboratory, consideration should be given to forwarding documents of 3M and Olivetti Underwood to respective main offices for additional examination in an attempt to identify any further characteristics or information.

Dear Friends

known as

On November 27, J. Edgar Hoover, Director of the Federal Bureau of Investigation, testified before the Senate Appropriations Committee that a "conspiracy of Catholic nuns. priests and lay people."

Mr. Hoover's testimony suggested that all the persons associated with anti-war draft actions were a single conspiratorial group, led by and all identified with the group

Those of us who know the ad hoc and nonviolent character of the Catholic resistence movement in these areas feel that these charges represent a very serious escalation of government repression of dissent and political opposition. Needless to say, the many people associated with the various actions are not a single group, are not led by in any organizational sense and totally reject the kind of actions which Mr. Hoover describes. Such testimony is an obvious effort to instill panic in the main body of the citizens by conjuring up an image of desperadoes who are planning to put together in one package all the various tactics of third world revolutionaries in Cuba, Vietnam, French Canada and Palestine.

If the FBI can make such charges totally without evidence, without any actual crimes committed and potentially bring down serious indictments based solely on their 'secret evidence' of 'conspiracies' and 'plots,' no citizen is safe and our civil rights will quickly disappear.

We feel that it is time for the broadest possible coalition of concerned citizens in all walks of life, but especially those dolliected with the church, to register a very strong protest in Washington against such political and repressive use of the legislative power of the FBI, and to make a dramatic manifestation of our repudiation of terrorism both by the Left and by the government. Finally we wish to show our determination to work for change through persuasion and reasoned confrontation with the issues. Nothing less than a transformation of consciousness and a rededication to constitutional ideals and human values can save this country from a very dangerous turn toward total destruction of liberty and hope both at home and around the world.

We call on you to respond to this and arouse your friends and colleagues to do likewise. As a service of national rededication, we plan to hold a 24hour fast-vigil in front of the Justice Department, December 18-19. We will assemble at a near-by church (to be announced) at 4 p.m. Friday and march from there in solemn procession to the Justice Department where we will commission the fasters with laying on of hands. At 3 p.m. the following day there will be a concluding celebration of the Eucharist, led by a broad spectrum of church and civic leaders. We call on you to come and bring others to participate in some or all of these events and to join us in this rededication to solidarity, resistence to oppression and commitment to authentic social values.

Investigation regarding Cornelius J. Drew Foundation:

0n May 28, 1971,
Office of the Controller of the
City of New York, Municiple Building, New York City, furnished the following information: U
involved in reconciling approximately \$8,000,000.00 in accountabilities owed to the City of New York by numerous anti-poverty agencies that had received federal and city grants under the Economic Opportuntity Act. explained that the accountabilities are owed either by explanation of fund expenditures or in the alternative by a return of non-expended cash. He stated that one such agency, operating under the direction of the Human Resources Administration (HRA) of the City of New York, Community Development Agency, was the Cornelius J. Drew Foundation (CDF). CDF was advanced \$63,000.00 for which \$49,820.98 has not been accounted, and advanced \$20,873.25 for which \$6,521.32 has not been accounted. The current total accountability, composed entirely of federal funds is \$56,342.30.0
stated that in the case of CDF, an advance represents an initial out lay of federal funds from the City of New York, so that the agency can begin operations. The accounting for the advance would occur when the agency ceased operations. Other allocations to the agency would be handled by the submission of expense youchers to HRA for payment by the City of New York which maintained control over other agency funds.
In regard to CDF, advised that he is not certain if the account has been settled with HRA and then owing to the City of New York by HRA or whether the account is still owed to HRA by CDF. He indicated that CDF terminated its operations in September, 1967, but that nothing had been done to date to complete the reconciliation. stated that this same situation exists with numerous other antipoverty agencies, explaining that at the inception of the antipoverty programs, the accounting procedures of the various agencies were extremely poor.

JOHN PETER GRADY was employed by the Cana Conference of Chicago
from October 1, 1960, through June 13, 1961. He stated his
title was Executive Assistant.

The following investigation was conducted by SA

He stated that prior to his employment with the Cana Conference, GRADY was associated with a Catholic magazine, Jubilee, which is published somewhere in the East. V

stated that GRADY was an excellent organizer and was very successful in handling large conferences and conventions. He stated that as adept as GRADY was in this capacity, he was deficient in detailed work and everyday paper work.

stated that if his budget was large enough to maintain a public relations man for the handling of such conferences with no requirements as to detailed work, then he could think of no man he would prefer over GRADY.

He stated that inasmuch as he needed someone who was more well-rounded in his abilities in this line of work, he was forced to terminate GRADY. He stated that the termination was amicable as GRADY realized his weakness in detail-type work and was aware that this part of his job was equally as important as the organizational aspect of the job. U

advised that he considered GRADY to be a very intelligent individual and GRADY in no way ever conducted himself in any manner which would cast aspersions on his loyalty or trustworthiness. He stated his personal opinion of GRADY was that he was extremely loyal and his character and morals are above reproach.

b6 b7C

CG 62-6868 2

He stated he can think of no one at the Conference who would have known GRADY. He stated that GRADY was very active in meeting with many different types of individuals while with the Conference and as a result of his dedication, he had little time for private social activities. He stated that the only friends GRADY had which are known to would be He advised that GRADY was associated with both did work with a Montessori School located somewhere in the western suburbs of Chicago. He stated he thinks that this school is now known as the Alcuin School. U stated that he does not think GRADY was involved to a large extent with Montessori schools in Chicago although he did become quite active in working with these schools after he left Chicago. He stated that after

He advised that he heard that when GRADY Left Chicago he returned to the East and went into politics.

GRADY left Chicago he attended a conference in an unknown city and he happened to meet GRADY. He said that GRADY was attending some type of Montessori School conference in this same city.

Dear Friends:

In my lotter dated Sopt. 16, 1969, I informed you that I intended to rimain a non-cooperator. In this letter I shall give you more details of the act which, ence again, will disaffiliate me from the Selective Service System.

On Ostober 19, 1969 the Philadelphia Draft Resistance will hold a draft card turn-in. During that afternoon I shall turn my card over to resistance, to do with as they see fit: I don't want the damn thing. At his time I will make verbal confirmation of my Resistance and attempt to persuade other young men to turn-in thior SSS cards, as I have done.

Part of my presentation will tell of the idiotic blundering of Board No 63. A draft board which could not even function with-in it's own Schooling Service Laws. I fool that you have a right too defend yourselves from such verbal attack. Therefore, I invite you too be in Philadelphia or October 15th at Kennedy Plaza to respond in rebuilat to what ever I say at that times Plause, real tree to respond empenly and hopestly.

· Yours in Love and Paaco.

We.		claim responsibility	for the destruction of draft
Atlac at			in Boston on
November	7. Through this	offence to good taste	and to law and order we make
ourselve:	s responsible for	our lives and for the	lives of our brothers.

We destroy some of these files today in Washington because we believe that the Peace Movement must seriously consider its responsibility to MOVE. We, as you, have marched, written letters, conferred with officialdom, spoken against the war, capitalist materialism, and military control. Mr. Nixon responded to our and your pleas in his November 3 speech, and we responded to these same pleas in Boston on November 7. If you feel as we do that marching and demonstrating are unproductive, we encourage you to take responsible action to secure peace and to end injustice.

We have fashioned hope with our bodies, as free people must do. We oppose with our lives genocide in Viet Nam and the arms race, exploitative investment abroad, rape of foreign manpower and resources, domestic racism, environmental ruin, and militarism in any form -- Selective Service, lottery, or volunteer army.

We attack Selective Service because it illustrates the powerlessness of all Americans, as well as the arrogance of power. It is to return control to the one, and to check the other, that we have acted. We believe that it will be impossible to reconstruct the draft records in Boston. All 1-A and 1-Y files were destroyed, as were files for resisters, delinquents, non-registrants. Chronological ledgers, alphabetical cross reference systems and minutes of draft board meetings were also destroyed.

Our action demonstrates that non-violent civil disobedience can effectively halt injustice. To us, such action is a profound moral and political duty, necessary to exalt life and secure peace. To these ends we deplore terroristic . -attacks which endenger life and engender fear.

P. PHYSICAL DESCRIPTION

The following physical description of	was
obtained during the course of another investigation condu	icted
during 1969 and 1970 relative to a reported violation of	the
Selective Service Act on the part of additional	
data obtained through former neighbor and school record:	U

Previous investigation involved the burning of his draft card by who forwarded an unburned portion of this card to his local board, #63, Hagerstown, Maryland, by letter advising this board of his action. Prosecutive action regarding this act was declined by the office of the U.S. Attorney, Baltimore, Maryland, at that time in view of IV-F classification.

he might be experimenting in the use of drugs and narcotics; however, she knew nothing specific concerning this. U

<u>On May 27, 1971, </u> Maryland, mother of acknowledged the was her son. She stated she was aware of his "deep-seated convictions" regarding military service and the current draft laws. While she held similar convictions, she did not fully agree with her son on active resistance to these laws or any laws. . She stated she felt passive resistance was the proper manner in which to oppose any law one did not believe in or held a conviction against, and that a passive resistor must be ready to accept the full punishment of the law for his or her resistance. She feels her son would accept any punishment meted out for his destruction of his draft cards and for his failure to carry them in his possession. She does not know his attitude toward accepting punishment for more active resistance, and, for this reason, she did not care to discuss his past activities; she felt this decision should be left by her up to her son. She advised she knew her son's current residence address, but that she did not desire to furnish same to the FBI until such time as she had had the opportunity to correspond with him and advise him she was going to do so. She stated she did not want to appear uncooperative; however, she feels whatever the interest in her son may be it is his decision to make, not one for her. She stated she would furnish his address at a later date. U

did advise that she did not know of any gainful employment her son had engaged in since graduating from high school. She further advised she had last seen him in Baltimore, Maryland, in October 1970, when he visited her for a day when she was confined to a hospital there. She advised that prior to that time, according to his letters, her son had been in Philadelphia, Pennsylvania; New York, New York; and Boston, Massachusetts. Since October 1970 to her knowledge, he has been out in the western part of the U.S., in Missouri, Kansas and most recently in Denver, Colorado. U

"We claim responsibility for this offense to good taste, and to law and order. This is our work at Jamaica Plain, Dudley Street, Uphams Corner and Copley Square. By it, we make ourselves reponsible for our lives, and for the lives of our brothers.

"We are eight Americans who have exhausted 'legitimate dissent' - marches, letters, conferences with officialdom, speeches against the war, against capitalist materialsm, against military control. All to no avail, all hopeless to effect just change.

"We will now fashion hope with our bodies - as free people must do. We oppose with our lives exploitative investment abroad, rape of foreign manpower and resources, genocide in Vietnam and ARms Race, environment ruin and domestic racism. And militarism in any form - Selective Service, lottery or volunteer army.

"We attack Selective Service because it illustrates the powerlessness of the young, as well as the arrogance of power. It is to assist the one, and to check the other that we have acted.

KC 100-14022

"But we insist on moral and non-violent disruption. To us, this kind of civil disobedience is a profound moral and political duty, as necessary to exalt life as to secure the peace. All life and power to the people, justice and freedom to all. U

"At an opportune time, we will identify ourselves publicly. Let life prevail! U

By communication dated November 19, 1969, the Washington Field Office furnished a Xerox copy of the statement of which was handed out in Washington, D. C. near the Lincoln Memorial on November 15, 1969, which is as follows:

We destroy some of these files today in Washington because we believe that the Peace Movement must seriously consider its responsibility to MOVE. We, as you, have marched, written letters, conferred with officialdom, spoken against the war, capitalist materialism, and military control. Mr. Nixon responded to our and your pleas in his November 3 speech, and we responded to these same pleas in Boston on November 7. If you feel as we do that marching and demonstrating are unproductive, we encourage you to take responsible action to secure peace and to end injustice.

We have fashioned hope with our bodies, as free people must do. We oppose with our lives genocide in Viet Nam and the arms race, exploitative investment abroad, rape of foreign manpower and resources, domestic racism, environmental ruin, and militarism in any form--Selective Service, lottery, or volunteer army.

We attack Selective Service because it illustrates the powerlessness of all Americans, as well as the arrogance of power. It is to return control to the one, and to check the other, that we have acted. We believe that it will be impossible to reconstruct the draft records in Boston. All 1-A and 1-Y files were destroyed, as were files for resisters, delinquents, non-registrants Chronological ledgers, alphabetical cross reference systems and minutes of draft board meetings were also destroyed.

Our action demonstrates that non-violent civil disobedience can effectively halt injustice. To us, such action is a profound moral and political duty, necessary to exalt life and secure peace. To these ends we deplore terroristic attacks which endanger life and engender fear.

Peace,

U stated he is an anarchist and has disassociated himself with the United States Government. He stated he has lived in communes since he was 15 years of age and the Government has always "hassled" him. He said until a short time ago he intended, and was attempting, to tear down the United States Government, but now has disassociated himself from the Government and is building a new life based on freedom. U He said he has the ability to make everything he needs without depending on society to furnish him his needs. He said he is an accomplished carpenter, saddle maker and farmer. He said he is also a good sailor. He said he and fifteen other men and their women are establishing a place to This place is a communal farm and they are in the live. process of building buildings. He said now they are almost all residing together but will each eventually have their own residence on the farm. He said he hopes to eventually purchase property in the Ozark Mountains and establish a communal farm there. U He said his woman, is eight months pregnant. She does not intend having the baby in the hospital as claims this affects a baby's health and prospects for a long life. He said the hospitals give women sedatives which cause the child to stay in the birth canal longer and thereby eventually shorten its life. He said a child, when born in a hospital, does not open its eyes for several days, whereas when a child is born naturally, it opens its eyes within a few hours. He said he and are not married.U said that he has been operating a leather business but has closed this business, and before that had helped another group of people set up a collective farm. said he taught them some farming and helped them build their Interviewed on 5/24/77 Denver, Colorado __file # <u>Denver</u> 100-10387

He stated his mother is _______ in Maryland and is doing an excellent job. He said he is the oldest of eight children. He said he was influenced by his religion to fight against the draft and the war in Vietnam and he has made a sailing trip to both Cuba and North Vietnam, stating "You have heard of the Phoenix."

He said he lived in a commune in Connecticut where several of the inhabitants were killed and only one man out of about fifteen was ever brought to trial for these murders. He said he has also lived in a commune at Taos, New Mexico, and several inhabitants of this commune were killed and the police have taken almost no action. He said he recently heard the same thing happened in Montana where three or four inhabitants of a commune were killed and almost no action was taken by the police and no national publicity was given to the occurrence.

He said he has as little respect for newspapers as he does for the Government and the police. He stated he feels that this part of the country, referring to Colorado, is a much better place to live than the east or the south as the police and the inhabitants of this area are not as inclined to harass his people.

Referring to the recent disturbances at Boulder, Colorado, he stated the type of people causing those disturbances are not his people as they are out to destroy and he and his people are now dedicated to building their own communities. U

He stated what he finds wrong with the United States Government is that the politicians and the wealthy people are living their lives at the detriment of other people; that that is why he originally set out to tear down this Government and the reason he has now disassociated himself with the Government. When asked what other form of government he felt would be better than this form of government,
